

MARCH NEWSLETTER

Our Superstars have been learning,

Rising Star,

In the Baby Room, our focus has been on fostering a sense of exploration and promoting early independence. The babies have been actively engaging with different sensory activities and discovering the world around them:

Exploring Textures: From soft fabrics to bumpy toys, our babies have been feeling a variety of textures, helping to develop their tactile senses.

Super Stars,

We explored the sound of "Q",. We also read stories that feature words starting with "Q," such as "Queen" and "Quiet."

We also practiced recognizing the letter "R" in our names and songs.

This week, we focused on "S" by creating snake shapes with playdough and singing songs about the sun and stars.

We also discussed the sounds of things like "table" and "tree."

This week we will explore letter "U" with an umbrella craft, listening to the "Uppity Up" song, and discussing words like "under" and "up."

Shining Stars,

We have been diving into the fascinating world of life cycles in the Preschool Room. The children have been learning about the different stages of growth in plants and animals, exploring concepts like birth, growth, and change. Some activities have included:

Plant Life Cycle: The children planted seeds and have been observing their growth, learning how plants grow from seed to full bloom.

HAPPY BIRTHDAY

Amelia
Daniel

World Book Day

Thank you for taking part in World Book Day, all children looked so cute. Here are a few photos.
